How to use this pack

Working notes for literature and discoveries. Not the thesis itself—feed `thesis/first-draft/` Chapter 2 from here. Existing narrative (read with Bayes-as-required framing disabled): `papers/archive/info`

1 Prioritized reading list

Tier 1 — pathways + local SATS

1. `papers/SATS-Manual-A5-LR-spreads.pdf` _ My Library _ Zotero.pdf — official SATS colour / discriminators / TEWS context
2. `papers/The implementation of the south african triage system in kath.pdf` — KATH / Ghana
3. `papers/Implementation of the South African Triage Scale (SATS) in a New Ambulance System in Beira, Mozambique: ....pdf` — LMIC SATS
4. `papers/Assessing the Impact of Waiting Time on Triage Color.pdf` (also `HSR2-8-e71520.pdf`) — colour ↔ waiting
5. `papers/Academic Emergency Medicine - 2023 - Mitchell - Systematic review ....pdf` — triage impact SR / PRISMA practice

Tier 2 — NLP → triage / chatbot

6. `biobert/papers/Lee2020-BioBERT-arxiv.pdf` — BioBERT primary paper
7. `biobert/papers/Devlin2018-BERT-arxiv.pdf` — BERT parent architecture
8. `biobert/papers/Gligorijevic2018-Deep-Attention-Triage-arxiv.pdf` (+ `papers/deep attention model for triage.pdf`)
9. `papers/journal.pone.0279953.pdf` — Stewart et al., NLP at ED triage
10. `papers/performance_of_emergency_triage_prediction_of_an.4.pdf` — NLP/chatbot performance
11. `papers/archive/info.txt` — project NLP narrative (drop Bayes-as-required)

Tier 3 — supporting

12. papers/under_triage__a_new_trigger_to_drive_quality.9.pdf — under-triage safety
13. papers/validation of a triage tool.pdf — validation methods
14. papers/comparison between smart triage model and a normal triage model.pdf
15. papers/conversational agents for older adults.pdf
16. biobert/papers/Vaswani2017-Attention-is-All-You-Need-arxiv.pdf — Transformer maths
17. papers/multimodal bayesian network for triage.pdf — **skim only** (why we do not implement Bayes in Part 2)
18. papers/colloborative medical triage under uncertainties.pdf — uncertainty / oversight

PRISMA blank templates: [systematic-review-prisma/](#).

2 Note stubs (fill while reading)

SATS / pathways notes

Status: stub. Record key claims, relevance to pathway table $P(C)$, and bib entries.

NLP / triage notes

Status: stub. BioBERT, BERT, attention triage, Stewart review takeaways for our pipeline.

Green Tag / flow / waiting-time notes

Status: stub. Overcrowding, diversion, waiting-time-colour evidence for Green pathway.
